**AMENDMENT**

Commissioner for Patents  
Washington, D.C. 20231

Sir:

Responsive to the Office action of September 30, 2002, please amend as follows:

IN THE CLAIMS

14. (Twice Amended) A method of promoting the growth of food animals by decreasing the waste of dietary protein caused by the presence of a protein-wasting immunogen in the rumen or intestinal tracts of food animals by inhibiting the ability of the immunogen to adhere to the rumen or intestinal tracts of food animals to reduce the ability of the immunogen to multiply, said protein-wasting immunogen is P antigen from [P.anaerobius] P.anaerobius, said method comprising:

A. Inoculating female birds, in or about to reach their egg laying age, with P antigen from [P.anaerobius] P.anaerobius;

B. Allowing a period of time sufficient to permit the production in the birds and eggs laid by the birds of antibody in the [yolk and albumin of the] eggs to P antigen from
